

JABULILE MASHIBINI

Junior Full Stack Developer

jabu.mashibs@gmail.com | 060 613 1823 | linkedin.com/in/jabulile-mashibini | github.com/Jabulile1704

PROFESSIONAL SUMMARY

Software engineering professional building applications across the full stack: Flutter and JavaScript/HTML/CSS front ends, C#/ASP.NET Core and Python back ends, REST/Web APIs, PostgreSQL and Firestore databases, and Azure cloud deployment (AZ-204 Azure Developer certified). Has designed and built complete real-world applications — including a geo-verified attendance platform for a government client and a location-aware job-matching app — from requirements through delivery. Seeking a Junior Full Stack Developer role to build reliable, well-tested applications end to end.

TECHNICAL SKILLS

Front End: Flutter (Dart), JavaScript, HTML5, CSS3, responsive design

Back End: C#, ASP.NET Core Web API, Python, REST APIs, Swagger/OpenAPI, Java

Databases & Data: PostgreSQL, SQL, Firestore, Power BI

Auth & Security: JWT with refresh tokens, Firebase Authentication, identity and access management

Cloud & Deployment: Microsoft Azure (App Services, Storage, Entra ID), Firebase, AWS fundamentals

Tools & Practices: Git, GitHub, GitHub Actions CI/CD, GitHub Projects (sprints), Agile, SDLC, software testing

PROJECTS

MoTirong – Geo-Verified Staff Attendance Platform (Flagship Project)

- Cross-platform staff attendance (clock-in/clock-out) application built for a government client (Mangaung Metro Municipality) with mandatory geo-tagging and biometric fingerprint verification, including fallback strategies for users with worn fingerprints.
- Tech stack: Flutter front end, ASP.NET Core Web API backend, PostgreSQL database, JWT authentication with refresh tokens, Microsoft Azure cloud platform, Swagger/OpenAPI documentation.
- Produced full engineering documentation: ERD, use cases, API reference, product backlog, and delivery roadmap; designed with POPIA (data privacy) compliance considerations.
- Manage delivery with GitHub Projects (sprint-based iterations) and GitHub Actions CI/CD workflows; tested on physical Android devices via USB/ADB.

TiroMoMangaung – Local Job-Matching Platform (Flagship Project)

- Cross-platform Flutter mobile application connecting job seekers with employers in the Mangaung Metro Municipality region — a localised job-matching platform in the spirit of LinkedIn and Indeed.
- Built end-to-end features: CV uploads, location-aware job listings showing distance from the user to each job, push notifications, and in-app profile management (email, contact numbers, profile image).
- Implemented Firebase Authentication and Firestore for secure user management and real-time data, an admin dashboard for managing listings and applicants, and application status tracking (accepted / pending / declined).

PROFESSIONAL EXPERIENCE

Software Engineering Facilitator — CTU Training Solutions

2026 – Present

- Deliver NQF Level 6 modules in software design and testing with C# and Java application development
- Teach ASP.NET/.NET development, Git/GitHub version control, and code review practices
- Develop practical lab materials, including AZ-204 bootcamp labs built with C# and ASP.NET Core
- Facilitate SDLC and Agile methodologies and software testing and quality assurance training
- Support learner projects with hands-on technical problem-solving across the stack

Software Development Facilitator — WWISE

2025 – 2026

- Delivered training in Python, JavaScript, HTML/CSS, and SQL
- Taught Web API design and consumption and modern web development fundamentals
- Facilitated Power BI and PowerApps for data-driven and low-code solutions
- Assisted learners in building complete practical software projects

EDUCATION

Advanced Diploma in Information Technology — Central University of Technology	2024 – 2025
Diploma in Information Technology — Central University of Technology	2020 – 2023

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Microsoft Certified: Azure Developer Associate (AZ-204)
- Microsoft Certified: Azure Virtual Desktop Specialty (AZ-140)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Identity and Access Administrator Associate (SC-300)
- Microsoft Certified: Security Operations Analyst Associate (SC-200)
- Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- AWS Certified Cloud Practitioner
- Oracle Cloud Infrastructure Foundations Associate
- Cisco Python Essentials 1 & 2
- ISO/IEC 27001:2022 Information Security Implementation (training)
- Microsoft Certified Trainer (MCT) – in progress
